Brief

4+ years of engineering experience. Delivering on projects, not 'just' developing the code. A big fan of thoughtfully responding rather than quickly reacting. As an engineer, I like to take on responsibility and feel like I have ownership of my work, which I want to be proud of. Quality > Quantity.

Skills

Python

Django

REST API

HTML & CSS

JS

CI/CD

SQL

Docker

AWS

Languages

Spanish *Native*

Catalan *Native*

English *Bilingual*

Experience

Software Engineer *ihateironing.com*

Oct 2020 - present London, UK

- Due to the company's size and environment, became a technical and engineering jack-of-all-trades: originally hired as sole full-time engineer at ihateironing.com, took over all technology built by contractors as the company grew; eventually transitioned into being an engineer as part of a small team, with more responsibilities in back-end development.
- Worked on development of growth-oriented features, both for the website as a Django server and the RESTful API for mobile through DRF.
- Involved in all technical discussion and product shaping decisions, especially in providing a technical point of view to non-technical employees in business settings.

Python Engineer *DAI*

June 2019 - Oct 2020 Manchester, United Kingdom

- Core Tech team member working mostly with Python to provide internal tooling and some C to improve performance of core components.
- Solely responsible for development and maintenance of company's package management tool. Entailed being a part of development and strategy meetings as well as being expected to work independently. Tool became a must for company developers. Set up systems to collect user feedback and feature requests.
- Introduced CI/CD to the company via set-up of a Jenkins server.

Undergraduate System Developer *Alfatec Sistemas*

June 2017 - May 2018 Valencia, Spain

- Placement employee mostly working with .NET and C++ to support engineers on a computer vision project.

President *European Youth Parliament España (EYPE)*

September 2017 - September 2018

Valencia, Spain and Manchester, UK

- Focused on the streamlining inner protocols, revamping the way the Board was managed and its relationship to internal stakeholders.

Education

Hons BEng with Industrial Experience

Electronic Engineering WIE Upper Second Class Honours (2:1)

The University of Manchester (UoM) September 2015 - July 2019

Projects

yearlify.com - web

Jan 2021 - present

A website that enables users to write a letter to their future selves.

ms margarita - cli & web

2019 - 2020

Started a library and reading club at DAI and developed tools for members to keep track of inventory and reading
